

THE SPIRIT OF THE WESTERN WOMAN

We are inviting all women of Wyoming to be part of an exciting project to commemorate the strength and vision of the women of Wyoming. Submit original works or works by women for women about women.

We want to capture the inspiration and forward thinking of Wyoming in recognizing what women have to offer. Those that have gone before and paved the way for those of us that are here today.

We want to capture all of these submissions in a commemorative book to serve us now and into the future.

What is that one thing that you would want to pass on to your daughters and their daughters?
That's what we want to hear about.

Make your submissions to the
